

## Gale Centre 20

For those looking to step up into more serious home cinema, the Centre 20's increased enclosure volume - the design measures 60cm wide - offers a larger performance, with greater slam. Improved frequency response, superior sensitivity, and the double-ported front baffle also aid performance considerably.

### Performance

Power rating	15-90Watt
Impedance (nominal)	6 Ohm
Sensitivity for 2.83 V	88dB
Frequency response	70 - 20k
Driver details	
LF Driver	Mylar dome
HF Driver	2x3.5" paper cone
Crossover	2-way 1st Order
Shielding	Yes
Cabinet	
Dimensions mm	H145 x W600 x D175
Ports	2 x front
Terminals	Single wire Nickel
Finish (vinyl)	Black Ash
